Need it Shredded?

Does your company need **secure destruction**? **Colt Recycling** operates a **300HP** high volume state of the art E-Scrap shredding system. This system is capable of shredding material to a **1/2-inch** particle size allowing for further separation of the materials into recoverable commodity streams.

Colt Recycling services OEM's, Defense Contractors and FORTUNE-500 Companies, by processing E-Scrap as well as any materials requiring **secure and documented destruction!**

Don't gamble with your proprietary products or critical data!

Physical destruction by shredding is the safest way to keep your information and designs from falling into the wrong hands. With policies and procedures that would satisfy the most stringent of

audits, you can be assured your E-waste materials will be handled indoors, in a secure environment and in the most **cost-effective** and **environmentally safe** manner.

We offer a wide variety of services, enabling us to become the most **complete recycling solution** for your business.
